

**Dear Chef and General Manager:**

Seeingit.com has a managed Hotel Referral and tracking program that can direct potential guests, as well as more local citizens to your restaurant. My name is Randall Harmon, founder of this community concierge and a patent-pending Interactive Business Promotion System. Formerly a national technology account manager for major hotel chains, this program is suited for hotels and restaurants.

### **Introducing the Seeingit.com Hotel Referral Program**

Based on national room occupancies, for every 100 rooms locally, 83 guests are eating breakfast, lunch and dinner, representing thousands of meals daily. Leverage Seeingit.com to direct hotel guests to you.

### **Effective Marketing and Restaurant Promotion Need Not Be Costly or Time Consuming**

Do you have an incentive for hotels, their guests and local citizenry? Seeingit.com is a self-serve, user input community website and media platform. Now restaurants can login to their Ad Listings to change dining features instantly, type a coupon or promotion, click Submit and publish in a 100 mile radius, plus it is instantly posted to your and our Twitter and Facebook accounts! And more. You also get 3 web URL's (SEO page, Live & Recorded Video Player pages and a Coupon page) that you can repurpose for example, to link on your website or use in social media marketing. Our purpose is to engage citizens and hotel guests in your community without costly group-buys, and double money coupons.

### **Loyalty Awards and Tracking Hotel Referrals**

It's simple. Entering the website, a user or hotel guest inputs their address and as long as they are in the system, the referral contact information is automatically inserted on the redeemable coupon or promotion that you typed on the Seeingit.com Ad Listing Form, making POS accounting a snap!

This is a managed program. We work closely, and are in communication with restaurants and hotels to ensure that you receive the highest possible benefit and outcome.

I would like to answer any questions that you may have. It would also be my pleasure to spend a few minutes discussing how best practices of our Interactive Business Promotion System can help your restaurant even more.

If it is not too much to ask, can you please drop me an email of when it may be a good time to talk.

Sincerely,

Randall Harmon, CEO & President / [randallh@seeingit.com](mailto:randallh@seeingit.com)
