## TUTORIAL

### How to: Post Listing

1. After completing the ad listing with basic information, add a picture or logo. Browse for the image file.
2. Type your 250 character (with spaces) business or broadcast show description. You will see the "250 characters remain" become fewer as you type. You can create a description in advance using a word processing program such as Microsoft Word. Character counter found on toolbar under Tools, Word Count, (characters with spaces).
3. If you are a broadcaster, a band, filmmaker or have a Video Blog show, you may post up to a 3 minute recorded video. Choose your video time before uploading it. Select from the drop down list, 30, 60 or 180 second video time. Our servers cut the video to these guidelines and standards. For example a 72 second video will be cut to 60 seconds so 12 seconds will be chopped off.
4. Take a camcorder or cell phone video, locate your saved video file and upload it. Use movie making software to compress the file for quicker downloads and a polished look. Free programs - Windows Movie Maker and others.
5. Paste video code here for a Video icon and stream live video of your business or for demonstrations. See this tutorial under **How to: Stream Live Video Broadcasts**.
